

How to Use a French Knitter

spool of yarn

First time around (red)

End of yarn

Second time around with the yarn, you do not need to wrap the pegs.

Slip the looped yarn over the second pass of yarn. Continue to work in this fashion to your desired length. From time to time, pull the work from the bottom of the knitter to tighten up the stitches.

You may find a bent paper clip or crochet hook useful in lifting the yarn over the second wrapping of yarn.
